

Tent Information

Lake City Rental has extensive experience in the rental and installation of tents for every type of private, corporate, and commercial events. All of our tents are machine washed before every rental to ensure a clean, and quality rental for every event. Please keep in mind that the Client is responsible for identifying and marking all underground utilities prior to Lake City Rental installing any structure onto location.

There are a number of considerations to be aware of when considering the use of a tent:

1. How many guests will be attending? Will the guests be seated or standing?
2. Will food be served? buffet style service, or formal sit down?
3. What special needs need to be addressed? For example, dance floor, dj, head tables, bar area, etc.
4. What type of surface will the tent be going on? grass, gravel, sand, asphalt, concrete.
